SPECIMEN HOLLIES

We are pleased to be able to offer you west coast grown ILEX AQUIFOLIUM ENGLISH HOLLY in specimen sizes. This particular glossy waxy leafed holly is often referred to as Oregon Holly and it is the same holly that you would buy in floral shops during the holidays at \$1.50 or more per pound.

The plants that we are offering will be shipped via prepaid railroad express direct to you or to the nearest railroad express office. We have obtained hollies from this particular source for the last 5 years and we have found that they produce the highest quality, most winter hardy English Hollies that we have ever seen.

We guarantee safe arrival of quality plants and provide complete planting instructions. You can now afford to plant these hollies yourself and save at least half their value by this "Do It Yourself Method".

The plants shipped will vary in age from about 8 to 20 years. They will only be dug when planting conditions are ideal and for this reason no orders will be accepted after March 10.

Please use regular order form enclosed. Be sure to specify size, sex, green or variegated.

<u>Description</u>	<u>Green Male</u>	<u>Green Female</u>	<u>Variegated Female</u>
24" - 36" Bushy	\$ 25.00	\$ 25.00	\$ 25.00
